Suit to Partition South Ogden Property-Junction City Briefs and Personals.

The Sidney Stevens Implement company has brought actions in the district court against M. Buchmiller et al and Marian Beus et al to partition parts of the South Ogden property. Some time ago considerable legal controversy arose over the properties now in question, and the court decided the case, giving each of the defendants as well as the plaintiff in this action certain portions of the land in question, but up to the present time the property has remained unpartitioned, but plaintiffs ask for a decree of court partitioning the same to the respective owners, also for attorney's fees and costs of

DEATH OF MRS. MARTHA CON-NELL.

William S. Connell of Ogden, through a letter to his daughter has received the sad news of the death of his aged mother, Mrs. Martha Connell, who died at Iona, Idaho, last week at the ripe age of 75 years. Her remains passed through Ogden Saturday for Washington, Washington county, where they were laid by the side of her late hus-band, Samuel Connell. Mrs. Connell was a woman of usefulness, always de-sirous of doing good. She was a faith-ful member of the Church of Jesus Christ of Latter-day Saints.

COAL MINING SITUATION.

Good Wages Made by Amateur Miners-Bridge and Crushers Nearly Completed. Special Correspondence.

Sunnyside, Carbon Co., Feb. 16.-The new bridge and crushers will soon be completed here. They have been under construction nearly six months, One thalf of the machinery will be tested this week. It is expected that when all the machinery is in place, very little coal will be shipped from Sunnyside. It will be crushed to fine dust for the coke ovens. Some 300 ovens are in operation

here. No slack is being shipped to Casle Gate since the strike.

Notwithstanding the many adverse reports that are being published by sev-eral papers in this state respecting the Utah Fuel company's not living up to its contracts, etc., the facts in the matter are against the transient element, that has furnished such items for the papers, as far as Sunnyside is concerned at least. The output of coal is as great as before the strike, and the average number of miners now working is no larger now than it was prior to Nov 9, 1903, and those who dig coal received an advance in wages of 12 per cent. So if men made good wages before the strike, they can do better

Hyrum, Cache Co., Feb. 15.—Jens Lauritzen died on the 12th inst., during the attack of a paralytic stroke, a complaint from which he had suffered during some four or five years. The deceased was born Nov. 5, 1824, at Norre Yelding, Ringkjobing, Amt, Denmark; served his country as a conscript soldier in its war with Germany, in 1848 and 1859; embraced the Gospel and was baptized May 23, 1860, and emigrated to Utah in 1863, his wife dying on the Atlantic ocean. In 1874 he married a young wife, who, with nine children, the youngest of which is nine years old, are left to mourn his demise, while one wife and four children will greet him over yonder. From 1876 he has held the office of a High Priest and at his death was the presiding officer of his quorum in the First ward. He was in every respect a zenious and faithful Church officer, a kind-father and husband, and an industrious and honest man. Funeral services were held at the stake building yesterday when a host of sympathizing relatives and friends listened to consoling remarks made by several speakers. Special Correspondence.

Board of Examiners Meet-Recommend Correspondence School.

Special Correspondence. Logan, Cache Co., Feb. 15.-The Church board of examiners, consisting of Supt. J. M. Tanner, President Geo. H. Brimhall of the Brigham Young university, President J. H. Paul of the Latter-day Saints university, and Pres-ident Jas. H. Linford of the Brigham Young college, held a very important meeting in the president's office of the

Brigham Young college on Saturday, the 13th inst. Two sessions were held occupying the whole day. The general field of Church school education was reviewed and plans were discussed looking to the improvement of the various schools that make up the system. One decision was reached that will increase the efficiency of the or-ganization and that was, no school shall outline subjects in education or psychology, in the first or second year of the high school course. Students who desire these subjects before the completion of the second year must

take them in the summer school.

It was decided to recommend to the general board the establishment of a Latter-day Saints Correspondence school to give instruction in normal and business subjects. Plans were matured for an inter-

mountain Chautauqua, to begin June 13, and continue for six weeks. Dr. Tanner, who leaves shortly to attend the superintendent's section of the Naional Educational association, was authorized to engage a teacher in English and one in pedagogy, who shall give six weeks courses in their special subjects. FRAUDS IN A BALE OF HAY.

Which Suggests a Word or Two About Frauds in Watch Cases.

According to an article in the Cincinnati Commercial, a fifty-one-pound stone was recently found in that city secreted in a bale of hay of eighty

pounds. This is not as bad as finding a lump of lead of nearly one-half the weight of the solid gold watch case secreted in the center of the case. Gold watch cases are sold by weight and no one can see where this lead is secreted until the springs of the case are taken out and the lead will be found secreted behind them.

These cases are made by companies

who profess to be honest, but furnish the means to the dishonest to rob the public. It is not pleasant for anyone to find that he has lugged a lump of lead in his watch case. Another trick of the makers of spurious solid gold watch cases is to stamp the case "U. S. Assay." The United States does not stamp any article made out of gold and silver except

coin, and the fakir, by using this stamp, wants to make the public believe that the government had some-thing to do with the stamping or guaranteeing the fineness of watch to advertise a watch described as a solid gold filled watch with a twenty or twenty-five year guarantee. These watches are generally sent C. O. D., and if the purchaser has paid for the

watch, he finds that the Company which guaranteed the watch to wear is not in existence The Dueber-Hampden Watch Company of Canton, Ohio, who are constantly exposing these frauds, will furnish the names of the manufacturers who are in this questionable business. Write for circulars.

NOTICE TO WATER USERS.

State Engineer's Office, Sait Lake City, Utah, Jan. 25, 1904.—Notice is hereby given that George C. Lambert, Jr., trustee for Sait Lake City Corporation, the Utah & Sait Lake Canal Company, the East Jordan Irrigation Company, and the North Jordan Canal Company, and the North Jordan Irrigation Company, and the North Jordan Irrigation Company, corporations, whose postoffice address is Sait Lake City, Utah, has made application in accordance with the requirements of Chapter 100 of the Session Laws of Utah, 1903, to appropriate two (2) second-feet of the unappropriated water flowing in Willow Creek, a tributary of Jordan River, in Sait Lake County, Utah, to be diverted by means of a gate in the side of the flume through which Willow Creek is now conducted over the Galena Canal and to be conducted through the said Galena Canal for a distance of about 27,400 feet from said point of diversion to the United States Smelter where the water will be used at all times during each year when prior appropriators are not entitled to its use, for supplying said smelter with water for generating steam, cooling jackets, granulating slag, etc., in lieu of that to be taken from said Galena Canal and stored in Utah Lake by the said city and canal companies. After having been so diverted and used the water will be returned to the natural channel of Jordan River at a point immediately west of said smelter.

All protests against the granting of said

smelter.

All protests against the granting of said application, stating the reasons therefor, must be made in writing and filed in this office after thirty (30) days and before sixty (60) days from the date hereof,

A. F. DOREMUS. State Engineer.
